Why Support Junior Achievement of Central Indiana?

JA's mission to educate young people in the areas of financial literacy, entrepreneurship and work-readiness has never been more relevant or essential to the future success of our city and state than it is today. Each day, students are inspired to believe in their potential and to make good choices as they gain valuable knowledge of how the 'real world' works. The contribution of your time, talents, and treasures helps JA provide critical lessons that will last a lifetime.
